Summary

System Engineering and Computer Science student with hands-on project experience and strong skills in time management, creativity, problem-solving, and teamwork. Experienced in balancing academics, part-time work, and software projects, and seeking a junior software development or internship opportunity to contribute and grow.

Work Experience

Road Train Staff / Conductor (Part-Time)

Mar 2026 – Present

株式会社 マックスコーポレーション • Osaka Castle

Assisted passengers and supported daily road train operations in a busy tourism environment. Communicated with visitors and station staff to help maintain smooth passenger service and resolve real-time issues. Developed strong communication, teamwork, and responsibility while working in a customer-facing role.

International Student Support & Operations Staff

Mar 2025 – Feb 2026

株式会社イーストブリッジ • Osaka

Lead a Myanmar part-time team, coordinate shifts and sales operations, support international students with SIM cards, Wi-Fi, and mobile plans, and communicate with Japanese management to resolve customer issues and maintain smooth daily operations.

Skills

C#, JavaScript, TypeScript, Next.js, Git, GitHub, Supabase, Full-stack development, Problem Solving, Teamwork, Leadership, Communication

Education

University of the People

Mar 2025 – Mar 2028

Computer Science | Bachelor of Science (BS)

- Activities and societies: Named to the President's List for Term 5 of the 2025–2026 academic year in recognition of academic excellence.

Osaka Information & Computer Science College

Mar 2025 – Mar 2027

System Engineering | Associate's Degree

- Achieved a strong GPA and maintained a 100% attendance rate while leading multiple academic projects and team activities.

Volunteer

Japanese Speaking Trainer

Jun 2024 – Aug 2024

Summit Education (Myanmar)

Supported Japanese learners through conversation practice, pronunciation guidance, and everyday communication exercises during a three-month volunteer program, helping improve their speaking confidence and practical communication skills.

Student Staff

Oct 2025

Open Source Conference (OSC)

Supported reception and front-desk operations at Open Source Conference (OSC), assisting with attendee guidance, event check-in, and on-site coordination.

Projects

Team Leader

Jul 2026 – Sep 2026

Hakushu web application (School Project)

Built and deployed Hakushu with the Byte Me team, an AI-powered web app that generates Japanese presentation scripts from English or Burmese notes for international university students in Japan; awarded at OIC NovaHack 2026.

- Supports English and Burmese input for generating Japanese presentation scripts.
- Tech: Next.js, TypeScript, Supabase, GitHub, AI integration
- Led the team project from idea development to deployment and coordinated the hackathon submission.
- Live Demo:<https://hakushu.vercel.app/>

Awards

みんなにつたわる賞

Sep 2026

Byte Me.(Team)

Recognized for strong teamwork, effective presentation preparation, and disciplined project execution, with the team completing key milestones ahead of schedule and receiving an award at OIC NovaHack 2026.
